

A Fodder.
Many people complain of the wind that has been visiting us for the past week, but in reality it is the best thing that could possibly happen to the State.

Considerable live stock died during the winter and the papers were full of information about the bad smelling atmosphere within twenty or thirty miles from the putrid remains of cattle and horses. The air is impregnated with the germs of disease and nothing but a strong wind will destroy them. Thousands of cubic feet of bad air are being swept away and fresh pure air is taking its place.

In some sections of the country the stench was so fearful that farmers had to remove their families for fear of an epidemic.

The strong wind that has been constantly blowing recently has made considerable of a change for the better and all in all we ought to be pretty well satisfied with the conduct of the weather maker.

The Salt Lake Tribune in speaking of Chauncey Depew for President says;

He is a fine scholar and orator, an alert man of affairs, and, more than all he has shown his ability by handling some tens of thousands of employees in a way to avoid strikes, and in such a way that when he travels through the country his employees make his journey an ovation. He is one of the few men born to everlasting luck and with genius enough behind it to make it look as though he had earned all he possesses.

Senator Stewart declared on the floor of the U. S. Senate the other day that the circulating medium in the United States (exclusive of the money in the National Treasury) can not exceed \$900,000,000. Of this sum over \$600,000,000 consists of credit paper. If the national banks are allowed to have their own way much longer, the United States will be precisely in the same financial fix as Austria and Turkey are today.

COAST NEWS.

Hanford's, Cal., artesian well is down 1,155 feet and flows ninety gallons a minute.

Sunday a stretch of 250 feet of snow shed was destroyed by fire at Strong's Canyon, near the Summit.

A Republican Club was organized in Sacramento Monday, and resolutions were passed pledging the power of the club to assist in reelecting Senator Stanford.

Three hoodlums at Jefferson, Or., entered a Chinese house and held the Mongolians outside the building while they robbed it of \$300, and with coal oil started a blaze that destroyed the structure.

A. Hunt sunk an artesian well 180 feet two miles from San Bernardino recently. The water rises thirty inches above the top of the casing, and stones eighteen pounds in weight are occasionally thrown out.

The harvest of cereals in Oregon and Washington will be the heaviest ever known, especially in the Inland Empire, where crops were short last year. There will be magnificent crops of apples, pears and peaches.

The railroad depot at Milford, Utah, was blown up in some unaccountable way Monday. The books and records of the station were destroyed, but the money and tickets were saved.

Born in a Coffin.
WISSADEN, July 8.—The body of Mme. Lavinaueril, who was believed to be in a hysterical fit, was placed in a vault Tuesday. On Saturday the body was found completely turned in the coffin, and the startling discovery was made that the supposed dead woman had given birth to a child, which was, of course, dead.

A young man in Wyoming blew out his brains because cigarette smoking had made his health poor. He merely took a speculative method of suicide, as the cigarette would have been equally effective in the long run.

THE DIRIGO HOTEL
